About Warsaw School of Computer Science

WSCS is the only university in Poland where the members of the Rector's Advisory Board are at the same time general managers of the world's biggest IT companies such as Microsoft, Hewlett-Packard, Cisco, Intel, IBM and Oracle.

Our School is one of the most dynamically developing private universities which is also unique due to the fact that we offer studies in one and only field of science - computer science!

WSCS has 4 halls with seats for 130 students, 12 laboratories including modern network laboratories built according to Cisco standards and computer graphic laboratory, 6 seminar rooms, conference room, students' café and bar, gym, library and reading room as well as archives and other administration offices.

If you really want to study computer science and work within the IT sector in a place that is exclusively dedicated to this field of science, then Warsaw School of Computer Science is the right place to begin your career!
